We have been continuing our topic of Professions this week, attached to this week's newsletter you will find each class' topic web for the next term up until Christmas, it outlines the activities and ideas of the class that we aim to cover in the next few months, but as always, we continue to look for additional exciting learning opportunities and experiences as they become available.

As many of you may know this September has seen the statutory implementation of Curriculum for Wales, and we have been working our way to achieving our aims over the past year. In the past 2 weeks we have been looking more closely at the four core purposes with the children. We started this term with our experience day at Llandrindod looking at many different careers as part of the 'Ambitious, capable learner' core purpose. These purposes are aimed to be at the centre of all learning and what drives the successful futures of all pupils. The purposes interweave each other and we aim as far as possible to provide a well-rounded curriculum for our pupils which will suitably prepare them for the future. If you would like to know more about this then please visit HWB linked below.
